FRONT-END TECHNOLOGIES **BACK-END & DATABASE**
HTML, CSS, JavaScript, ReactJs, Next Js, React Native, Tailwind CSS Node.js, MySQL

TOOLS
VS Code, GitHub, Postman

📁 PROJECTS

FARMINSTA, REACT.JS, NEXT.JS, RESTful APIs 🔗
- Built a web application using React.js and Next.js to enable seamless communication between farmers, field officers, and agri-based product companies with efficient service request management.
- Integrated RESTful APIs for real-time data updates, enhancing user experience through structured data flow and smooth interactions across all stakeholders.

GEMINI APP, REACT.JS, GOOGLE GEMINI API 🔗
- Developed a user-friendly Gemini app clone replicating its core features and design using React.js, delivering a seamless and engaging user experience with dynamic updates.
- Integrated generative AI for real-time processing, enabling contextually accurate responses and immediate feedback to enhance overall user interaction.
